Address: Budigere Cross, Bangalore, 560049

SUMMARY

Full Stack Web Developer with **1 year** of hands-on **experience** building scalable web applications using the **MERN stack and TypeScript** at **Tap EdTech** and 4 months as an independent developer. Skilled in developing responsive, high-performance interfaces and integrating **REST APIs**. Delivered up to **40%** workflow efficiency improvements across recent projects. Actively exploring and implementing AI-integrated full-stack solutions and **seeking opportunities** to contribute to modern product-focused engineering teams.

SKILLS

Front-end: React.js, HTML, CSS, JS, Redux, SASS, Next.js

Back-end: Express.js, Node.js, REST APIs

Database: MongoDB

Languages: JavaScript, TypeScript, Java

Others: Git(Version Control), Postman, Unit Testing(Jest), Manual Testing

EXPERIENCE

Tap EdTech | Full Stack Web Developer | Jun 2024 – May 2025

- Implemented AI Mock Interview CRUD modules for the admin panel, automating management tasks and saving 10+ hours/week.
- Developed responsive layouts for mobile/tablet using Sass, reducing UI bugs by 45%.
- Enhanced the AI Mock Feedback system, reducing feedback response time by 50%.
- Created a Favorites Page for company-specific questions, improving learning efficiency by 30%.
- Developed a dynamic Blogs Page and Course Details Page in the Tai Website module using Next.js and Material UI.

Independent Developer | Personal Projects & Learning | Jun 2025 – Present

- Developing full-stack apps using Next.js, TypeScript, and MongoDB.
- Building and maintaining open-source personal projects on GitHub using MERN and Next.js.
- Actively experimenting with new tools and AI integrations for modern web applications.
- Continuously improving testing, optimization, and deployment workflows.

**PROJECTS &
